POISONS ACT
(CHAPTER 114)

POISONS RULES

S 62/1957
Enactment No. 13 of 1956
Amended by
S 102/1979

REvised Edition 2015
ARRANGEMENT OF RULES

Rule
1. Citation.
2. Interpretation.
3. Licences.
4. Form for recording sale of poisons.
5. Conditions of sale of poisons.

LEAD TETRA-ETHYL
6. Special provisions in respect of lead tetra-ethyl.
7. Licences fees.

APPLICATION AND RELAXATION OF PROVISIONS OF ACT
9. Limitation of section 6(3) to certain substances.
10. Extension of section 6(3) to supply of poisons otherwise than by sale, including commercial samples.
11. Relaxation of section 7(3) in case of certain medicines.
12. Exemption from provisions relating solely to First Schedule.
13. Complete exemption for certain articles and poisons.

ADDITIONAL RESTRICTIONS ON SALE OF POISONS
15. Restriction of sales by persons licensed to sell Part II Poisons.
16. Restriction on sale of strychnine.

SUPPLEMENTARY PROVISIONS WITH RESPECT TO LABELLING AND CONTAINERS

17. Manner of labelling containers.
18. Labelling of name of poison.
19. Labelling of particulars as to proportion of poison.
20. Indication of character of poison.
21. Special cautions in case of certain substances.
22. Relaxation of certain labelling requirements.
23. Form of containers.

STORAGE AND TRANSPORT

25. Transport of poisons.
26. Special provisions with respect to transport of certain poisons in Sixth Schedule.

SPECIAL PROVISIONS WITH RESPECT TO HOSPITALS

27. Supply of medicines to out-patients from certain hospitals etc.
28. Supply of medicines for use in hospitals etc.
29. Storage of poisons in institutions.

COLOURING OF POISONS

30. Manufacture of pharmaceutical preparations.
31. Books, records and orders to be preserved on premises of sale for 2 years.
FIRST SCHEDULE — SUBSTANCES FALLING WITHIN POISONS LIST TO WHICH SPECIAL RESTRICTIONS APPLY

SECOND SCHEDULE — ARTICLES EXEMPTED UNDER RULE 13 FROM PROVISIONS OF ACT AND RULES

THIRD SCHEDULE — SUBSTANCES REQUIRED BY RULE 14 TO BE SOLD BY RETAIL ONLY UPON PRESCRIPTION GIVEN BY REGISTERED MEDICAL PRACTITIONER, DENTIST OR VETERINARY SURGEON

FOURTH SCHEDULE — STATEMENT OF PARTICULARS AS TO PROPORTION OF POISON IN CERTAIN CASES PERMITTED BY RULE 19(2)(a)

FIFTH SCHEDULE — INDICATION OF CHARACTER PRESCRIBED BY RULE 20 FOR PURPOSES OF SECTION 6(2)(c)

SIXTH SCHEDULE — SUBSTANCES TO WHICH RULE 26(1) (TRANSPORT) APPLIES

SEVENTH SCHEDULE — SUBSTANCES TO WHICH RULE 30(1) (COLOURING) APPLIES

EIGHTH SCHEDULE — FORMS

NINTH SCHEDULE — FEES
Citation.
1. These Rules may be cited as the Poisons Rules.

Interpretation.
2. (1) In these Rules —

“antimonial poisons” means chlorides of antimony, oxides of antimony, sulphides of antimony, antimonates, antimonites, and organic compounds of antimony;

“arsenical poisons” means halides of arsenic, oxides of arsenic, sulphides of arsenic, arsenates, arsenites, copper acetoarsenites, sodium thio-arsenites and organic compounds of arsenic;

“licensed importer” means an importer licensed under the Act;

“licensed person” means a person licensed under the Act;

“mercurial poisons” means oxides of mercury, nitrates of mercury, mercuric chloride, mercuric ammonium chlorides, mercuric iodide, potassium-mercuric iodides, mercuric oxycyanides, mercuric thiocyanate, organic compounds of mercury.

(2) In these Rules —

(a) any reference to an alkaloid includes a reference to any salt of that alkaloid, and in a case where the esters of an alkaloid are included in the Poisons List by virtue of the words “its esters”, to any esters of that alkaloid;

(b) any reference to medicines for the internal treatment of human ailments includes any medicine to be administered by hypodermic injection but does not include a reference to gargles, mouthwashes, eye drops, eye lotions, ear drops and douches for nasopharyngeal, rectal, vaginal or urethral use;

(c) “food” includes a beverage;
LAWS OF BRUNEI

6 CAP. 114, R 1 Poisons

[Subsidiary]

(d) “British Pharmacopoeia” and “British Pharmaceutical Codex” includes the supplements and addenda thereto.

(3) Any reference in the Schedules to these Rules to the percentage of a poison contained in any substance shall, unless otherwise expressly provided, be construed in the following manner, that is, a reference to a substance containing one per cent of any poison means —

(a) in the case of a solid, that one gramme of the poison is contained in every hundred grammes of the substance; and

(b) in the case of a liquid, that one millilitre of the poison, or if the poison itself is a solid, one gramme of the poison, is contained in every hundred millilitres of the substance,

and so in proportion for any greater or less percentage.

Licences.

3. (1) Licences to import and store poisons shall be in Form A in the Eighth Schedule.

(2) Licences to deal generally in poisons by wholesale and retail shall be in Form B in the Eighth Schedule.

(3) Licences to keep and sell specified poisons by wholesale shall be in Form C in the Eighth Schedule.

(4) Licences to keep and sell specified poisons by retail shall be in Form D in the Eighth Schedule.

Form for recording sale of poisons.

4. The record of the sale by retail of any of the poisons in the First Schedule shall be in Form E in the Eighth Schedule.

Conditions of sale of poisons.

5. The sale of any poison which by section 8 is exempted from the provisions of section 6 shall be subject to the following —

(a) it shall be sold only upon an order in writing given by or on behalf of a person, firm or body corporate known to the vendor;
(b) persons licensed under the Act other than licensed pharmacists and licensed practitioners, shall keep a record of the sale of all poisons in a book kept solely for that purpose. The record shall be kept in Form F in the Eighth Schedule;

(c) a record of a sale of a poison in the First Schedule by a licensed pharmacist or licensed practitioner shall be kept in Form E in the Eighth Schedule, but the signature of the purchaser and the signature and address of the person introducing him may be omitted; and

(d) such record shall be made on the day on which the poison is supplied.

**LEAD TETRA-ETHYL**

**Special provisions in respect of lead tetra-ethyl.**

6. (1) In this rule —

“concentrated ethyl fluid” means any fluid containing lead tetra-ethyl in a proportion exceeding one part in 950 parts by volume;

“ethyl-petrol” means motor spirit containing lead tetra-ethyl;

“lead tetra-ethyl” includes other similar lead-containing compounds used as ingredients of motor fuels.

(2) No person shall manufacture lead tetra-ethyl in Brunei Darussalam.

(3) The importation, possession and use of concentrated ethyl-fluid, except in accordance with provisions of a licence issued in that behalf by a Licensing Officer is prohibited. A Licensing Officer may, at his discretion and subject to any conditions which he may consider necessary, issue such licence and every such licence shall be revocable at any time by a Licensing Officer without compensation.

(4) Persons obtaining ethyl-petrol, either directly or indirectly, from a licensed importer shall be exempted from the provisions of the Act and of all rules made thereunder except those contained in subrules (5), (6), (7) and (8).

(5) No person shall import, sell or have in his possession any ethyl-petrol containing lead tetra-ethyl in a proportion exceeding one part in 950 parts by volume.

(6) No person shall import, sell or have in his possession any ethyl-petrol unless such ethyl-petrol be coloured blue, red, green, orange or brown.

(7) No person shall sell ethyl-petrol in containers unless such containers bear a label in the English, Malay and Chinese languages to the following effect —
This spirit contains lead — To be used for Motor Fuel only.

(8) No person shall sell ethyl-petrol unless at the place of sale —

(a) there is prominently displayed in a conspicuous place, a notice in the English, Malay and Chinese languages to the following effect —

This spirit contains lead — To be used for Motor Fuel only;

(b) there are available for distribution on request, leaflets in the English, Malay and Chinese languages adequately describing the possible dangers involved in the use of ethyl-petrol and the precautions to be taken in dealing therewith.

Licence fees.

7. The fees for licences under the Act shall be as set out in the Ninth Schedule.

APPLICATION AND RELAXATION OF PROVISIONS OF ACT

Extension of labelling provisions.

8. The provisions of section 6(2) and the provisions of these Rules relating to the labelling of poisons shall apply with respect to —

(a) the sale of any poisons in the circumstances specified in section 8(a), (c), (d), (e), (f) and (g); and

(b) the supply of poisons (otherwise than by sale),

in like manner as if references in those provisions to the sale and the seller of poisons included references to the supply and the supplier of poisons respectively.

Limitation of section 6(3) to certain substances.

9. Except as provided in section 8, the provisions of section 6(3) shall apply to all substances in the First Schedule (whether or not they consist of or contain poisons included in Part I of the Poisons List) and shall not apply to any other substance.

Extension of section 6(3) to the supply of poisons otherwise than by sale, including commercial samples.

10. The provisions of section 6(3) shall apply to the supply, otherwise than by sale, including the supply of commercial samples, of any substance consisting of or containing any poison included in the First Schedule, otherwise than upon the signed
request of a registered medical practitioner, veterinary surgeon, dentist, pharmacist, or a person who requires the poison for the purpose of his trade or business.

Relaxation of section 7(3) in case of certain medicines.

11. The requirements mentioned in section 7(3) need not be satisfied in the case of any medicine, not being a medicine consisting of or containing any substance included in the First Schedule, which is supplied by —

   (a) a licensed practitioner for the purpose of medical treatment; or

   (b) a person licensed to sell any poison included in Part I of the Poisons List on and in accordance with a prescription given by a registered medical practitioner.

Exemption from provisions relating solely to First Schedule.

12. Such of the provisions of these Rules and of the Act as apply solely to the substances included in the First Schedule shall not apply to —

   (a) machine spread plasters;

   (b) surgical dressing; or

   (c) articles containing barium carbonate and prepared for the destruction of rats and mice.

Complete exemption for certain articles and poisons.

13. Nothing in these Rules or in the provisions of the Act shall apply with respect to —

   (a) any articles included in Group I of the Second Schedule;

   (b) any poison specified in the first column of Group II of the Second Schedule when contained in or consisting of the article or substance specified in the second column opposite the description of that poison; or

   (c) any poison specified in the first column of Group III of the Second Schedule when sold, stored, or used in accordance with the conditions stated in the second column.
ADDITIONAL RESTRICTIONS ON SALE OF POISONS

Additional restriction on certain poisons.

14. (1) It shall not be lawful to sell any poison included in the Third Schedule, except on and in accordance with a prescription given by a registered medical practitioner, dentist or veterinary surgeon in the form provided by this rule.

(2) This rule shall apply to the sale of any such poison, notwithstanding that it consists of or is an ingredient of a medicine dispensed or supplied in the circumstances specified in of section 7(1)(b) and (c), and in accordance with the provisions of that section, but shall not apply to the sale of any such poison in the circumstances specified in section 8.

(3) For the purposes, of this rule, a prescription shall —

(a) be in writing and be signed by the person giving it with his usual signature and be dated by him;

(b) specify the address of the person giving it;

(c) specify the name and address of the person for whose treatment it is given or, if the prescription is given by a veterinary surgeon, of the person to whom the medicine is to be delivered;

(d) have written thereon, if given by a dentist, the words “For dental treatment only” or, if given by a veterinary surgeon, the words “For animal treatment only”; and

(e) indicate the total amount of the medicine to be supplied and the dose to be taken.

(4) The person dispensing the prescription shall comply with the following requirements —

(a) the prescription shall not be dispensed more than once unless the prescriber has stated thereon that it may be dispensed more than once;

(b) if the prescription contains a direction that it may be dispensed a stated number of times or at stated intervals, it shall not be dispensed otherwise than in accordance with the directions; and

(c) at the time of dispensing there shall be noted on the face of the prescription above the signature of the prescriber the name and address of the seller and the date on which the prescription is dispensed.
Restriction of sales by persons licensed to sell Part II Poisons.

15. (1) No person licensed to sell Part II Poisons only shall sell any arsenical or mercurial poisons unless the purchaser thereof is engaged in the trade or business of agriculture or horticulture or the preservation of buildings or other structures liable to be destroyed by termites or other insects and requires the poison for the purpose of the trade or business.

(2) No person licensed to sell by retail Part II Poisons only shall sell any poison except in a closed container as closed by the manufacturer or other person from whom the poison was obtained.

Restriction on sale of strychnine.

16. It shall not be lawful to sell or supply strychnine except as an ingredient in a medicine:

Provided that this rule shall not apply to the sale of strychnine —

(a) by way of wholesale dealing;

(b) for the purpose of being compounded in medicines prescribed or administered by a registered medical practitioner or veterinary surgeon; or

(c) to a person or institution concerned with scientific education or research or chemical analysis, for the purpose of that education, research or analysis.

SUPPLEMENTARY PROVISIONS WITH RESPECT TO LABELLING AND CONTAINERS

Manner of labelling containers.

17. (1) Subject to any provision to the contrary, the particulars with which the container of a poison is required to be labelled under section 6(2) and under these Rules, shall appear in a conspicuous position on the container in which the poison is sold and on the box or other covering of whatever nature enclosing the container, and the particulars shall be clearly and distinctly set out in any way obscured or obliterated.

(2) Where the poison is contained in an ampoule, cachet or similar article, it shall not be necessary to label the article itself if the box or other covering in which the article is enclosed is duly labelled.

(3) Nothing in section 6(2) or in these Rules shall require the labelling of any transparent cover or of any wrapper, hamper, packing case, crate or other covering used solely for the purposes of transport or delivery.
Labelling of name of poison.

18. (1) Subject as hereinafter provided, the name of a poison shall, for the purpose of provisions relating to labelling, be the term under which it is included in the Poison List:

Provided that where the describes a group of poisons and not the poison specifically, the name of the poison shall be —

(a) if the poison is the subject of a monograph in either the British Pharmacopoeia or the British Pharmaceutical Codex, one or other of the names or synonyms set out at the head of the monograph; and

(b) in any other case, the accepted scientific name or names descriptive of the true nature and origin of the poison.

(2) Notwithstanding anything in subsection (1), if the poison consists of, or is contained in, any preparation in the British Pharmacopoeia, or the Formulary of the British Pharmaceutical Codex, or any dilution or admixture of such a preparation, the name of the poison may, for the purposes of this rule, be the name or synonym or abbreviated name used to describe the preparation in the British Pharmacopoeia or the Formulary of the British Pharmaceutical Codex, with the addition of the letters B.P. or B.P.C., as the case may be.

Labelling of particulars as to proportion of poison.

19. (1) The label of the container of a preparation which contains a poison as one of its ingredients shall include a statement of the proportion, whether stated as a percentage or not, which the poison bears to the total ingredients of the preparation, and where the proportion is stated as a percentage, the container shall be so labelled as to indicate whether the percentage is calculated on a basis of weight in weight, weight in volume, or volume in volume.

(2) (a) In the case of a preparation containing a poison specified in the first column of the Fourth Schedule, it shall be sufficient to state on the label the particulars specified in the second column of that Schedule against the description of the poison.

(b) In the case of a preparation derived from nux vomica or from opium and containing one or more alkaloids of nux vomica or of opium named in the Poisons List, it shall be sufficient, so far as those alkaloids are concerned, to state on the label the proportion of strychnine or of morphine, as the case may be, contained in the preparation.

(3) In the case of a preparation in the British Pharmacopoeia or the Formulary of the British Pharmaceutical Codex which is named in accordance with subrule (2) it shall not be necessary to state on the label the proportion of poison contained in the preparation and in the case of any dilution or admixture of such a preparation, it shall be
sufficient to state the proportion which the preparation bears to the total ingredients of the dilution or admixture.

(4) Where the poison is in tablets, pills, cachets, capsules, lozenges or similar articles, or in ampoules, it shall be sufficient if the label of the box or other covering in which the articles are enclosed states the number of the articles and the amount of the poison, or in the case of such a preparation as is mentioned in subrule (3), the amount of the preparation contained in each article.

**Indication of character of poison.**

20. (1) The container of any article specified in the Fifth Schedule shall, instead of being labelled with the word “Poison”, be labelled with the words specified in the Fifth Schedule as applicable to that article.

(2) Those said words or the word “Poison”, as the case may be, shall not be modified in meaning by the addition of any other word or mark, and shall —

(a) in the case of a substance included in the Poisons List, either be in red lettering or be set against a red background. The word “Poison” shall be written or printed in the English, Malay and Chinese languages; and

(b) in all cases either be on a separate label or be surrounded by a line within which there shall be no other words except words with which the container of the poison is required to be labelled under the Act or these Rules.

**Special cautions in case of certain substances.**

21. (1) It shall not be lawful —

(a) to sell or supply any liquid poison, other than a medicine, in a bottle of a capacity of less than 120 fluid ounces, unless the bottle is labelled with the words “Not to be taken” in red lettering or set against a red background, in the English, Malay and Chinese languages;

(b) to sell or supply any poison consisting of or contained in any embrocation, liniment, lotion, liquid anti-septic, liquid disinfectant, or other medicine for external application unless the container is labelled with the name of the article and the words “Not to be taken internally” in red lettering or set against a red background, in the English, Malay and Chinese languages;

(c) to sell or supply any compressed hydrocyanic acid, or ammonia unless the container is labelled with the words “Warning. This container holds poisonous gas and should only be opened and used by persons having expert knowledge of the precautions to be taken in its use”.
(2) The provisions of this rule shall be in addition to the other requirements of the Act and of these Rules with respect to labelling and shall apply to medicines and poisons dispensed or supplied in accordance with section 7.

Relaxation of certain labelling requirements.

22. (1) The provisions of section 6(2)(d) shall not apply in the case of an article sold for the purpose of re-sale in the same container, and the requirements of section 6(2)(d) shall be deemed to be satisfied, in the case of a poison supplied from a warehouse or depot, if the container of the poison is labelled with the address of the supplier’s principal place of business, or, in the case of a limited company, of the registered office of the company.

(2) Where any poison (other than a substance included in the First Schedule) is sold in a container and outer covering, being the container and covering in which it was obtained by the seller, it shall be sufficient if the name of the seller and the address of the premises on which it was sold appear only on the outer covering.

(3) Where the names of more than one person or more than one address appear on any label, there shall also be words on the label indicating clearly which person is the seller and at which of the addresses the poison was sold.

Form of containers.

23. (1) It shall not be lawful to sell, whether wholesale or retail, or supply any poison unless it is contained in a container impervious to the poison and sufficiently stout to prevent leakage arising from the ordinary risks of handling and transport.

(2) This rule shall apply to medicines and poisons dispensed or supplied in accordance with section 7.

STORAGE AND TRANSPORT

Storage of poisons.

24. (1) It shall not be lawful to store any poison except in a container impervious to the poison and sufficiently stout to prevent leakage from the container arising from the ordinary risks of handling and transport.

(2) It shall not be lawful to store any substance included in the First Schedule in any retail shop or premises used in connection therewith unless the substance is stored —

(a) in a cupboard or drawer reserved solely for the storage of poisons;
(b) in a part of the premises which is partitioned off or otherwise separated from the remainder of the premises and to which customers are not permitted to have access; or

(c) on a shelf reserved solely for the storage of poisons and —

(i) no food is kept directly under the shelf; and

(ii) the container of the substance is rendered distinguishable by touch from the containers of articles and substances other than poisons stored upon the same premises:

Provided that, in the case of any such substance to be used in agriculture or horticulture, it shall not be lawful to store the substance on any shelf, or in any such part of the premises as aforesaid if food is kept in that part, or in any cupboard or drawer unless the cupboard or drawer is reserved solely for the storage of poisons to be used as aforesaid.

Transport of poisons.

25. It shall not be lawful to consign any poison for transport unless it is so packed as to avoid leakage arising from the ordinary risks of handling and transport.

Special provisions with respect to transport of certain poisons in Sixth Schedule.

26. (1) It shall not be lawful to consign for transport by a carrier any substance or article, other than a medicine, consisting of or containing any poison included in the Sixth Schedule, unless the package containing the substance or article is labelled conspicuously with the name of the poison and a notice indicating that it is to be kept separate from foodstuffs and from empty containers in which foodstuffs have been contained.

(2) It shall not be lawful for any person knowingly to transport any such substance or article as aforesaid, either on his own behalf or for another person, in any vehicles in which food is being transported, unless the food is carried in a part of the vehicle effectively separated from that containing the substance or is otherwise adequately protected from the risk of contamination.

SPECIAL PROVISIONS WITH RESPECT TO HOSPITALS

Supply of medicines to out-patients from certain hospitals etc.

27. (1) The provisions of the Act and of these Rules shall not apply with respect to —
(a) any medicine for the treatment of human ailments dispensed from a hospital, infirmary or dispensary maintained by any public authority, or out of public funds, or by a charity; or

(b) any medicine for the treatment of animals supplied from a veterinary hospital which is under the superintendence of a veterinary surgeon,

but the requirements contained in the following provisions of this rule shall be satisfied in relation thereto.

(2) The medicine shall only be supplied by, or on and in accordance with a prescription of, a medical practitioner for the purposes of medical treatment, or a dentist for the purposes of dental treatment, or a veterinary surgeon for the purposes of animal treatment.

(3) In a case where a substance included in the First Schedule is supplied, a record shall be kept on the premises in such a way that there can readily be traced at any time during a period of 2 years after the date on which the substance was supplied the following particulars —

(a) the name and quantity of the poison supplied;

(b) the date on which the poison was supplied;

(c) the name and address of the person to whom the poison was supplied; and

(d) the name of the person who supplied the poison or who gave the prescription upon which it was supplied.

(4) The container of the medicine shall be labelled —

(a) with the name and address of the hospital, infirmary, dispensary or institution from which it was supplied;

(b) except in the case of a medicine made up ready for internal treatment, with the word “Poison”; and

(c) in the case of a poison supplied from a veterinary hospital, with the words “For animal treatment only”.

Supply of medicines for use in hospital etc.

28. (1) The provisions of this rule and rule 29 shall apply to any hospital, infirmary, dispensary, clinic, nursing home or other institution at which human ailments are treated (referred to in this rule and in rule 29 as “an institution”).

(2) In any institution in which medicines are dispensed in a dispensing or pharmaceutical department in charge of a person appointed for that purpose, no medicine containing a poison shall be supplied from that department, except in cases of emergency, for use in the wards, operating theatres or other sections of the institution, except in accordance with the requirements contained in the following provisions of this rule.

(3) The medicines shall only be supplied upon a written order signed by a registered medical practitioner, dentist, or by a sister in charge of a ward, theatre or other section of the institution.

(4) The container of the medicine shall be labeled —

(a) with the words describing its contents; and

(b) in the case of substances included in the First Schedule, with a distinguishing mark or other indication indicating that the poison is to be stored in a cupboard reserved solely for the storage of poisons.

Storage of poisons in institutions.

29. (1) The requirements contained in this rule shall apply to the storage of poisons in institutions.

(2) In any institution in which medicines are dispensed in a dispensing or pharmaceutical department in charge of a person appointed for the purpose, all poisons other than those issued for use within the institution shall be stored in that department.

(3) In any institution to which subrule (2) does not apply, all poisons other than those issued for use within the institution shall be stored —

(a) in charge of a person appointed for the purpose by the governing body or person in control of the institution; and

(b) in the case of poisons which are included in the First Schedule either in a cupboard or drawer, or on a shelf, reserved solely for the storage of poisons:

Provided that, where a poison is stored on a shelf, the container of the poison shall be rendered distinguishable by touch from the containers of articles other than poisons stored on the same premises.
(4) In any institution, every substance included in the First Schedule which is stored in the wards shall be stored in a cupboard reserved solely for the storage of poisons and poisonous substances.

(5) All places in which poisons are required by this rule to be stored shall be inspected at regular intervals of time not exceeding 3 months by a pharmacist or by some other person appointed for the purpose by the governing body or person in control of the institution.

COLOURING OF POISONS

Manufacture of pharmaceutical preparations.

30. (1) It shall not be lawful to sell any poison included in the Seventh Schedule and intended for use in agriculture or horticulture for the destruction of bacteria, fungi, insects, vermin or as weedkiller or for the preservation of buildings or other structures liable to be destroyed by termites or other insects unless there has been added to the poison a dye of a distinctive colour. The dye must be soluble in water if the poison is intended to be used dissolved or mixed with water. If the poison is sodium arsenite or any other alkaline arsenite, the dye shall be methylene blue, which shall be thoroughly mixed with the poison in the proportion of not less than one part by weight of methylene blue to every hundred parts by weight of alkaline arsenite.

(2) This rule shall not apply to —

(a) lead arsenate paste or lead arsenate powder;

(b) poisons which are of themselves of a distinctive colour; or

(c) sheep dips which are already of a distinctive colour.

Books, records and orders to be preserved on premises of sale for 2 years.

31. All books, records and orders required under the provisions of the Act or these Rules shall be preserved on the premises at which the sale was made for a period of 2 years from the date of the sale or the date on which the last entry was made in the book or record.
SUBSTANCES FALLING WITHIN POISONS LIST TO WHICH SPECIAL RESTRICTIONS APPLY

Acepromazine; its salts
Acetanilide; alkyl acetanilides
Acetazolamide; its salts
Acetohexamide
Acetorphine; its salts; its esters and ethers; their salts
Acetylcarbromal
Acetylcholine Chloride
Acetylcysteine
Acetyldigitoxin
Acetylhydrocodeine; its salts
Acetylmethadol; its salts
Adiphenine Hydrochloride
Alclofenac
Alcuronium chloride
Aldicarb

Alkaloids, the following; the quaternary compounds; any salt simple or complex, of any substance falling within the following —
Aconite, alkaloids of, except substances containing less than 0.02% of the alkaloids of aconite
Atropine, except substances containing less than 0.15% of atropine or not more than 1% of atropine methonitrate
Belladonna, alkaloids of, except substances containing less than 0.15% of the alkaloids of belladonna calculated as hyoscyamine
Brucine except substances containing less than 0.02% of brucine
Calabar beans, alkaloids of
Coca, alkaloids of, except substances containing less than 0.1% of the alkaloids of coca
Cocaine, except substances containing less than 0.1% of cocaine
Codeine; its esters and ethers, except substances containing less than 1.5% of codeine
Colchicum, alkaloids of
Conine except substances containing less than 0.1% of conine
Cotarnine except substances containing less than 0.2% of cotarnine
Curare, alkaloids of; curare bases
Egonine, its esters and ether; except substances less than the equivalent of 0.1% of egonine
Emetine, except substances containing less than 1% of emetine
FIRST SCHEDULE — (continued)

Ephedrine, its optical isomers; except when contained in liquid preparations (other than aerosol dispensers) or preparations not intended for internal treatment of human ailments and except solid preparations containing less than 10% of ephedrine or its optical isomers otherwise than in an inert diluent
Ergot, alkaloids of, whether hydrogenated or not; their homologues; any salt of any substance falling within this item
Gelsemium, alkaloids of, except substances containing less than 0.1% of the alkaloids of gelsemium
Homatropine except substances containing less than 0.15% of homatropine
Hyoscyamine except substances containing less than 0.15% of hyoscyamine
Jaborandi, alkaloids of, except substances containing less than 0.5% of the alkaloids of jaborandi
Lobelia, alkaloids of, except substances containing less than 0.5% of the alkaloids of lobelia
Morphine; its salts, its esters and ethers; their salts; except substances containing less than 0.2% of morphine calculated as anhydrous morphine
Nicotine
Papaverine except substances containing less than 1% of papaverine
Pomegranate, alkaloids of, except substances containing less than 0.5% of the alkaloids of pomegranate
Quebracho, alkaloids of
Rauwolfia, alkaloids of; their salts; derivatives of the alkaloids of rauwolfia, their salts
Sabadilla, alkaloids of; except substances containing less than 1% of the alkaloids of sabadilla
Solanaceous alkaloids, not otherwise included in this Schedule, except substances containing less than 0.15% of solaceous alkaloids calculates as hyoscyamine
Stavesacre, alkaloids of, except substances containing less than 0.2% of the alkaloids of stavesacre
Strychnine except substances containing less than 0.2% of strychnine
Thebaine except substances containing less than 1% of thebaine
Veratrum, alkaloids of, except substances containing less than 1% of the alkaloids of veratrum
Yohimba, alkaloids of
Allyisopropylacetylurea
Allylprodine; its salts
Alphacetylmethadol; its salts
Alphamethadol; its salts
Alphaprodine; its salts
Alprenolol; its salts
Ambenonium Chloride
FIRST SCHEDULE — (continued)

Ambuside
Ametazole Hydrochloride
Amethocaine; its salts
Amidopyrine; its salts; amidopyrine sulphonate; its salts
Amiloride Hydrochloride
Amino-alcohols esterified with benzoic acid, phenylacetic acid, phenypropionic acid, o-cinnamic acid or the derivatives of these acids, except substance containing less than 10% of esterified amino-alcohols; their salts
p-Aminobenzenesulphonamide; its salts; derivatives of p-aminobenzene-sulphonamide having any of the hydrogen atoms of the p-amino group or of the sulphonamide group substituted by another radical; their salts
Aminopterin Sodium
Aminorex; its salts
p-Aminosalicylic acid; its salts
Ammonium chlorate
Ammonium perchlorate
Androgenic, oestrogenic and progestational substances, the following —
   Benzoestrol
   Derivatives of stilbene, dibenzyl or naphthalene with oestrogenic activity; their esters
   Steriod compounds with androgenic or oestrogenic or progestational activity; their salts
Anilerdine; its salts
Antibiotics, the following; their salts their esters and salts of such esters —
   Actinomycins
   Amikacin Sulphate
   Amphomycins
   Amphotericins
   Bacitracin
   Bleomycin
   Candicidin
   Capreomycin
   Cephaloglycin
   Cephaloridin
   Cephalosporins, that is to say, the antimicrobial substances containing in their chemical structure a fused dihydrothiazine B-lactam nucleus
Chloramphenicol
Chlortetracyclin
Clindamycin
Cycloserine
Demethylchlortetracycline
Erythromycin
Flavomycin
Framycetin
Fusidic acid
FIRST SCHEDULE — (continued)

Gentamycin
Gramicidins
Griseofulvin
Hachimycin
Kanamycin

Lincomycin, that is to say, the S-alkyl derivatives of 6, 8-dideoxy-6-trans-(4)-alkyl-L-2-pyrrolidine carboxamido)-1-thio-D-erythro-oc-D-galacto-octo-pyranoside and N-methyl-pyrrolidine analogues thereof

Methacyline
Mithramycins
Minocycline
Mitomycins
Neomycin
Novobiocin
Nystatin
Oleandomycin
Oxytetracycline
Praromomycin
Penicillin, its salts and derivatives
Polymixins

Rifomycins, that is to say, a group of related microlactans either produced by the growth of streptomyces mediterranei or by modification of such products and containing the chemical structure of 11-acetoxy-7, 9, 15- trihydroxy-13-methoxy-2, 6, 8, 10, 12-pentamethylpentadeca-2, 4, 14-trienoci acid amide, attached by the nitrogen atom and by the oxygen atom in the 15 position respectively to the 7-and 2-position of a 5, 6, 9-trixygenated 2, 4-dimethyl-1-oxonaphtho (2, 1-b) furan

Ristocetins
Spectionomycins
Spiramycin
Streptomycin and its derivatives

Tetracyclines, that is to say, the antimicrobial substances containing the chemical structure naphthacene-2-carboxymide, hydrogenated to any extent, and having each of the positions 1, 3, 10, 11 and 12 substituted by a hydroxyl or an oxo group

Thiamphenicol
Tobramycin
Tylosin
Tyrothricin
Vanomycin
Viomycin
Virginiamycin

Antimony, chlorides of, antimonates, antimonites, organic compounds of antimony

Apiol
FIRST SCHEDULE — (continued)

Apomorphine; its salts
Aprotinin
Arsenical poisons, except substances containing less than the equivalent of 0.01% of arsenic trioxide and except dentifrices containing less than 0.5% of acetarsol
L-Asparaginase
Atenolol
Azacylonol; its salts
Azapropazone
Azathioprine
Barbituric acid; its salts; derivatives of barbituric acid; their salts; compounds of barbituric acid; its salts; its derivatives; their salts; with any other substance
Barium; salts of, other than barium sulphate and the salts of barium specified in Part II of the Poisons List
Beclamide
Bemegride
Benactyzine; its salts; its quaternary compounds
Benapryzine
Benserazide Hydrochloride
Benzbromarone
Benzethidine; its salts
Benzene
Benzhexol; its salts
Benzidine
Benzilone Bromide
Benzocaine
Benzoctamine; its salts
Benzoylmorphine; its salts
Benztropine; and its homologues; their salts
Benzylomorphine; its salts
Betamethadol; its salts
Betachloralose
Betamepredone; its salts
Betamethadon; its salts
Betaprodine; its salts
Bethanadine; its salts
Bethanechol Chloride
Betiztramide; its salts
Biperiden; its salts
Bretylum; its salts
Bromhexine Hydrochloride
Bromocriptine Mesylate
Bromvaletone
Bufexamac
Buformin; its salts
Bufotenine; its salts; its esters and ethers; their salts
Buphenine Hydrochloride
Bupivacaine; its salts
Busulphan; its salts
Butacaine Sulphate
Butriptyline hydrochloride
Cannabinol and its tetrahydro derivatives prepared partly or wholly by synthesis; their
3-alkyl homologues; and esters and ethers of any substance falling within this item
Cannabis; the whole plant, or part thereof, the resin of cannabis; extracts of cannabis;
tinctures of cannabis, cannabin tannate
Cantharidin except substances containing less than 0.01% of contharidin
Cantharidates except substances containing less than the equivalent of 0.01% of
contharidin
Captodiame; its salts
Caramiphen; its salts
Carbachol
Carbamazepine
Carbenoxolone; its salts
Carbidopa
Carbimazole
Carbofuran
Carbromal
Carbutamide; its salts
Carisoprodol
Carperidine; its salts
Chloral; its addition and condensation products; their molecular compounds; except
when contained, in the form of chloral hydrate, in preparations intended for external
application only
Chlorambucil
Chlordiazepoxide; its salts
Chlorinated hydrocarbons, the following —
Aldrin
Benzoxyrate
Benzene hexachloride (BHC) (HCH)
Bromocyclen
Camphechlor
Captachlor
Captan
Chlorbenside
Chlorbicyclen
Chlordane
Chlordencone
Chlorendioneform
Clorfenethol
FIRST SCHEDULE — (continued)

Chlorfenson
Chlorfesulfide
Chlorobenzilate
Chloromebuform
Chloropropylate
Dicophane (D.D.T.)
pp’–DDT
Dicofol
Dieldrin
Dienochlor
Diflubenzuron
Endosulfan
Endrin
Fenazaflor
Fenson
Fluorbenzide
Folpit
Gamma benzene hydrochloride (Gamma-BHC)
HEOD
HHDN
Heptachlor
Isobenzan
Isodrin
Kelevan
Methoxychlor (1, 1, 1-trichlor-2, 2-di-(p-methoxyphenyl) ethane)
Quintozone
Tetrachlordiphenlethane (TDE)
Tetradifon
Tetrasul
Toxaphene
Allied chlorinated hydrocarbon compounds used as pesticides (insecticides, acaricides etc.)
Chlorinated phenols; their salts
Chlormequat
Chlormethizole; its salts
Chloroform; except substances containing not more than 5% of chloroform or when in preparations not intended for the internal treatment of human ailments
Chloropicrin
Chlorothiazide and other derivatives of benzo-1, 2, 4-thiadiazine-7-sulphonamide 1, 1-dioxide
Chlorphenoxamine; its salts
Chlorpheptermine; its salts
Chlorpropamide; its salts
Chlorprothixine and other derivatives of 9-methylenethia-zanthern; their salts
FIRST SCHEDULE — (continued)

Chlorthalidone and other derivatives of o-chlorobenzene sulphonamide
Chlorzoxazone
Cimetidine
Clofazimine
Clofibrate
Clomiphene; its salts
Clomidine; its salts
Clonitazine
Clorexolone
Clorpenaline; its salts; when contained in aerosol dispensers
Clotrimazol
Codoxime; its salts
Corticotrophins, natural and synthetics
Cortisone, hydrocortisone, prednisone, prednisolone, derivatives of these with hydroxyl, alkyl groups of halogens as substituents, esters and salts of esters of such derivatives
Curare
4-Cyano-2-dimethylamino-4, 4-diphenylbutane; its salts
4-Cyano-1-methyl-4-phenylpiperidine; its salts
Cyclarbamate
Cyclohexamide
Cyclopenolate Hydrochloride
Cyclophosphamide
Cycrimine
Cyhexatin
Cyproterone
Cytarabine
Dacarbazine
Danazol
Dantrolene Sodium
Dapsone; its salts
Daunorubicin; its salts
Deanol; its salts
Debrisoquine; its salts
Dehydroemetine; its salts
Demecarium bromide
Deptropine; its salts
Desferrioxamine Mesylate
Desipramide; its salts
Desomorphine; its salts; its esters and ethers; their salts
Dexetimide
Dextromethorphan; its salts; except substances containing less than 1.5% of dextromethorphan
Dextromoramide; its salts
Dextrophan; its salts
FIRST SCHEDULE — (continued)

Diacetylmorphine; its salts
Diacetylnalorphine; its salts
Diamino-diphenyl sulphones; their salts; their derivatives
Diampropamide; its salts
Diazepam and other compounds containing the chemical structure or dihydro-1 4-benzodiazepine substituted to any degree; their salts
Diazoxide; its salts
Dilbenzipin; its salts
Dicyclomine Hydrochloride
N, N-Disthyltryptamine (DET): its salts
Difenoxin
Digitalis, glycosides and other active principles of digitalis; except substances containing less than one unit of activity (as defined in the British Pharmacopoeia) in two grammes of the substance
Dihydrallazine; its salts
Dihydrocodeine; its salts; its esters and ethers; their salts
Dihydrocodeinone; its salts
Dihydromorphine; its salts; its esters and ethers; their salts
Diloxanide Furoate
Dimenoxadole; its salts
Dimepheptanol; its salts, its esters and ethers; their salts
Dimepropion
Dimercaprol
Dimethrin
Dimetilan
Dimethothiazine Mesylate
2, 5-Dimethoxy-oc, 4-dimethylphenethy-lamine; its salts (DOM)
Dimethylthiambutene; its salts
N, N-Dimethyltryptamine (DMT); its salts
Dimethyltubocurarine; its salts
Dimitrocresols (DNOC); their compounds with a metal or base
Dinitronaphthols
Dinitrophenols
Dinitrothymols
Dinosam; its compounds with a metal or base
Dioxacarb
Dioxaphetyl butyrate; its salts
Diperodon; its salts
Diphenoxylate; its salts
Diphetarsone
Dipipanone; its salts
Diprenorphine Hydrochloride
Dipyridamole
Diquat; its salts
Disopyramide
FIRST SCHEDULE — (continued)

Distigmine; its salts
Disulfiram
Disulphamid
Dithienylallylamines; dithienylalkylallylamines; their salts
Dopamine Hydrochloride
Dothiepin; its salts
Doxapram; its salts
Doxepin; its salts
Doxorubicin; its salts
Drazoxolon; its salts
Drostanolone; its salts
Drotebanol
Dyflos
Ecothiopate iodine
Ectylurea
Edrophonium Chloride
Embutramide
Emepronium; its salts
Emylcamate
Endothal; its salts
Estramustine; its salts
Etafedrine; its salts
Ethacrynic acid; its salts
Ethambutol; its salts
Ethamivan
Ethamsylate
Ethchlorvynol
Ethebenecid
Ethinamate
Ethoniamide
Ethogluclid
Ethoheptazine; its salts
Ethosuximide
Ethylmethylthiambutene
Ethylmorphine; its salts; its esters and ethers; their salts; except substances containing
less than 0.2% of ethylmorphine
Ethynoradrenaline; its salts
Etonitazine; its salts
Etorphine; its salts; its esters and ethers; their salts
Etoxeridine; its salts
Fazadinium Bromide
Fencamfamin; its salts
Fenfluramine; its salts
Fenoprofen; its salts
Fenoterol
FIRST SCHEDULE — (continued)

Fentanyl; its salts
Flavoxate; its salts
Fluanisone
Flucytosine
Flufenamic acid; its salts; its esters; their salts
Fluroacetamide
Fluroacetonilide
Fluorouracil; its salts
Flupenthixol; its salts
FluprostanoI
Flurbiprofen
Fluspirilene
Furosemide
Furaltadone
Furazolidone
Furethidine; its salts
Gallamine; its salts; its quaternary compounds
Glibenclamide; its salts
Glibornuride; its salts
Glipizide
Glutethimide; its salts
Glycopyrrolonium Bromide
Glymidine
Guanethidine; its salts
Guanidines, the following —
    polymethylene diguanidines di-p-anisyl-p-phenetylguanidine
Guanoclor; its salts
Guanoxyan; its salts
Haloperidol and other 4-substituted derivatives of N-(3-p-fluorobenzoyl)propyl piperidine
Heparin
Heptaminol; its salts
Hexachlorophene
Hexamethonium; its salts
Hexapropymate
3-Hexyl-1-hydroxy-7, 8, 9, 10-tetrahydro-6 6, 9-trimethyl-6H-dibenzo (b,d) pyran (parahexyl)
Hydralazine; its salts
Hydrazines, benzyl, phenethyl and phenoxyethyl, their oc-methyl deriva-tives, acy derivatives of any of the foregoing substances comprised in this item; salts of any compounds comprised in this item
Hydrochloric acid
Hydrocodone; its salts
FIRST SCHEDULE — (continued)

Hydrocyanic acid except substances containing less than 0.15% weight in weight, of hydrocyanic acid (HCN); cyanides other than ferrocyanides, except substances containing less than the equivalent of 0.1%, weight in weight, of hydrocyanic acid (HCN)

Hydrofluoric acid
Hydromorphinol; its salts; its esters and ethers; their salts
Hydromorphinone; its salts; its esters and ethers; their salts
Hydroxycinchoninic acid; derivatives of; their salts; their esters; except substances containing less than 3% of a hydroxycinchoninic acid or a derivative thereof
Hydroxy-N, N-dimethyltryptamines; their esters or ethers; any salt of any substance falling within this item
Hydroxyperhididine; its salts; its esters and ethers; their salts
Hydroxyurea
Hydroxyzine; its salts
Ibuprofen
Idoxuridine
Imipramine; its salts
Indomethacin; its salts
Iprindole; its salts
Iproniazide; its salts
Isoaminile; its salts
Isocarboxazid; its salts
Isoetharine; its salts
Isomethadone (isoamidone); its salts
Isoniazid; its salts; its derivatives; their salts
Isoprenaline; its salts
Isopropamide Iodide
Ketamine; its salts; its esters and ethers; their salts
Ketoprofen
Khellin
Labetolol Hydrochloride
Lactrile
Laudexium; its salts
Lead, compounds of, with acids from fixed oils
Lead tetra-ethyl and similar lead containing compounds
Levadopa; its salts
Levallorphan; its salts
Levomethorphan; its salts
Levomoramide; its salts
Levophenacylmorphan; its salts; its esters and ethers; their salts
Levorphanol; its salts; its esters and ethers; their salts
Lignocaine; its salts
Lithium; carbonate; sulphate
Lofepramine
FIRST SCHEDULE — (continued)

Loperamide; its salts
Lysergamide
Lysergide and other N-alkyl derivatives of lysergamide; their salts; their quaternary compounds
Mannomustine; its salts
Maprotiline; its salts
Mazindol
Mebanazine; its salts
Mebendazole
Mebeverine Hydrochloride
Mebezonium iodide
Mebutamate
Meccamylamine; its salts
Meclofenoxate; its salts
Mefenamic acid; its salts; its esters; their salts
Mefruside
Mepenzolate Bromide
Melphalan
Mephenesin; its salts
Mepivacaine Hydrochloride
Meprobamate
Mercaptopurine; its salts; derivatives of mercaptopurine; their salts
Mercuric chloride except substances containing less than 1% of mercuric chloride; mercuric iodide except substances containing less than 2% mercuric iodide; nitrates of mercury except substances containing less than the equivalent of 3%, weight in weight, of mercury (Hg); potassiomercuric iodides except substances containing less than the equivalent of 1% of mercuric iodide; organic compounds, of mercury except substances, not being aerosols, containing less than the equivalent of 0.2%, weight in weight, of mercury (Hg)
Mersalyl
Metaxalone
Metazocine; its salts; its esters and ethers; their salts
Metformin; its salts
Methadone (amidone); its salts
Methadyl acetate; its salts
Methaqualone; its salts
Methimazole
Methixene; its salts
Methocarbamil
Methotrexate
Methoxamine Hydrochloride
Methoxsalen
Methoxyphenamine; its salts; when contained in aerosol dispensers
Methsuximide
FIRST SCHEDULE — (continued)

Methylaminophosphate; its salts; when contained in aerosol dispensers
Methyldesorphine; its salts; its esters and ethers; their salts
Methyldihydromorphine; its salts; its esters and ethers; their salts
Methyldopa
Methyldopate; its salts
2-Methyl-3-morpholino-1, 1-diphenylpropanecarboxylic acid; its salts; its esters; their sales
Methypentynol; its esters and other derivatives
oc-Methylphenethylamine, B-methyl-phenethylamine and oc-ethylphenethyl-amine; any synthetic compound structurally derived from any of those substances by substitution in the aliphatic part or by ring closure therein (or by both such substitution and such closure) or by substitution in the aromatic ring (with or without substitution at the nitrogen atom) except ephedrine; its optical isomers and N-substituted derivatives, fenfluramine, hydroxyamphetamine, methoxyphenamine; phenylpropanolamine, pholedrine and prenylamine; any salt of any substance falling within this item
Methylphenidate; its salts
Metoclopramide; its salts
Metomidate Hydrochloride
Metopon; its salts; its esters and ethers; their salts
Metoprolol Tartrate
Metyrapone
Mexizetine Hydrochloride
Mianserin Hydrochloride
Mitobranitol
Mitopodozide; its salts
Molindone; its salts
Monofluoracetic acid; its salts
Morazone
Morinamide; its salts
Morpheridine; its salts
Morphine methobromide; morphine N-oxide and other pentavalent nitrogen morphine derivatives
Mustine and any other N-substituted derivatives of di-(2-chloroethyl) amine; their salts
Myrophine; its salts
Naftidrofuryl; its salts
Nalidixic acid; its salts; its esters and salts of such esters
Nalorphine; its salts
Naloxone; its salts
Naphazoline; its salts
Naproxen
Nefopam
Neostigmine; its salts
Nialamide; its salts
Niclofolan
Nicocodine; its salts
Nicodicodine; its salts
Nicomorphine; its salts
Nicoumalone
Nifedipine
Nifenazone
Nikethamide
Niridazole
Nitric acid
Nitrofurantoin
Nitrofurazone
Nitromin; its salts
m-Nitrophenol; o-nitrophenol; p-nitrophenol
Nitroprusside; its salts
Noracymethadol; its salts
Norcodeine; its salts; its esters and ethers; their salts
Norlevorphanol; its salts; its esters and ethers; their salts
Normethadone; its salts
Normorphine; its salts; its esters and ethers; their salts
Norpipanone
Nortriptyline; its salts
Nux Vomica except substances containing less than 2% of strychnine
Opipramol; its salts
Opium except substances containing less than 0.2% of morphine calculated as anhydrous morphine
Orciprenaline; its salts; when contained in aerosol dispensers
Organo-tin compounds, the following —
   Compund of fentin
Orphenadrine, its salts
Othocaine; its salts
Ouabain
Oxamniquine
Oxedrine Tartrate
Oxethazaine; its salts
Oxolinic acid
Oxpernolol; its salts
Oxybuprocaine Hydrochloride
Oxycodone; its salts; its esters and ethers; their salts
Oxymorphone; its salts; its esters and ethers; their salts
Oxypertine; its salts
Oxyphenbutazone
Oxyphencyclimine Hydrochloride
Oxyphenonium Bromide
Oxytocins, natural and synthetic
Pancuronium; its salts
Papaverine; its salts
Paraldehyde
Parmaethadione
Paraquat; its salts
Parathyroid Gland
Pargyline; its salts
Pemoline; its salts
Pempidine; its salts
Penicillamine; its salts
Pentazocine; its salts
Penthienate Methobromide
Pentolininum; its salts
Perhexiline maleate
Pethidine; its salts
Phenacaine; its salts
Phenacetemide
Phenadoxone; its salts
Phenaglycodol
Phenampromide; its salts
Phenazocine; its salts; its esters and ethers; their salts
Phenbutrazate; its salts
Phencyclidine; its salts
Phenethylamine and derivatives
Phentidylphenacetin
Pheneturide
Phenformin; its salts
Phenidione
Phenindione
Phenmetrazine; its salts
Phenomorphan; its salt; its esters and ethers; their salts
Phenoperidine; its salts; its esters and ethers; their salts
Phenothiazine; derivatives of; their salts; except dimethoxanate; its salts and promethazine, its salts and molecular compounds
Phenoxybenzamine Hydrochloride
Phenoxypropazine; its salts
Phenprocoumon
Phensuximide
Phentermine; its salts
Phentolamine; its salts
Phenylbutazone; its salts
2-Phenylcinchoninic acid; 2-salicylcincho-ninic acid; their salts; their esters
5-Phenylhydantoin; its alkyl and aryl derivatives; their salts
4-Phenylpiperidine-4-carboxylic acid ethyl ester; its salts
Phenylpropanolamine Hydrochloride
FIRST SCHEDULE — (continued)

Pholcodine; its salts; its ester and ethers; their salts
Phosphorus compounds, the following —
Any substance derived from the molecule H3PO4 by substitution of any of the
hydrogen and oxygen atoms and used as pesticides (insecticides, acaricides etc.)
excepting —
bromophos
bromophos-ethyl
2-chloro-1-(2, 4, 5-trichlorophenyl) vinylidimethyl
phosphate
diazinon
dimethoate
dipterex
fenchlorphos
fenitrothion
fenthion
malthion
o, o, o” o’-tetramthyl o, o’-thiodi-p-phenylene phosphoroticate
Physostigmine and its salts
Picrotoxin
Pilocarpine; its salts and quaternary compounds except substances containing less than
0.5% of pilocarpine
Piminodine; its salts
Pimozide; its salts
Pindalol
Pipenzolate Bromide
Piperidolate Hydrochloride
Pipradol; its salts; its esters and ethers
Piracetam
Piritramide; its salts
Pituitary gland, active principles of
Pizotofen and its salts
Podophyllum and podophyllum resin
Poldine Methylsulphate
Polidexide and its salts
Polymethylenebistrimethylamonium salts
Poppy-straw and concentrate of poppy-straw
Potassium chlorate
Postassium hydroxide
Postassium perchlorate
Practolol
Pralidoxime; its salts
Prazosin
Prenylamine Lactate
Prilocaine Hydrochloride
Primidone
FIRST SCHEDULE — (continued)

Probenecid
Procainamide; its salts
Procarbazine; its salts
Prochlorperazine; its salts
Procyclidine; its salts
Proheptazine; its salts
Prolintane Hydrochloride
Promoxolone
Proneathalol; its salts
Propanidid
Propantheline Bromide
Properidine; its salts
Propiram
Propoxyphene; its salts
Propranolol; its salts
Prepylhexedrine; its salts
Propylthlouracil
Prostaglandins
Protamine; its salts
Prothionamide; its salts
Prothipendyl; its salts
Protirelin
Protriptylene; its salts
Psilocin
Psilocybin
Pyrazinamide
Pyridostigmine Bromide
Quinethazone
Quinidine and its salts
Quinine and its salts
Racemethorphan; its salts
Racemoramide; its salts; its esters and ethers; their salts
Racemorphan; its salts; its esters and ethers; their salts
Rauwolfia; alkaloids of; their salts; derivatives of the alkaloids of rauwolfia; their salts
Razoxane
Rimiteral Hydrobromide
Ritodrine Hydrochloride
Salbutamol; its salts
Salamefamol
Savin, oil of
Sodium 4-(dimethylamino) benzenediazosulphonate
Sodium chlorate
Sodium cromoglycate
Sodium hydroxide
FIRST SCHEDULE — (continued)

Sodium perchlorate
Sodium valproate
Solapsone
Sotalol hydrochloride
Spironalactone
Strophanthus, glycosides of
Styramate
Sulindac
Sulphinpyrazone
Sulphonol; alkyl sulphonals
Sulphuric acid
Sulpiride
Suprarenal gland medulla, the active principals of; their salts except when contained in
preparations intended for external application only or in inhalants in aerosol
dispensers containing adrenaline or its salts rectal preparations or preparations
intended for use in the eye
Suxamethonium; its salts
Syrosingophine
Tacrine Hydrochloride
Tamoxifen; its salts
Terbutaline; its salts
Terabenazine; its salts
Thalidomide; its salts
Thallium; salt of
Thebacon; its salts; its esters; their salts
Thiacetazone
Thiambutene
Thimabutozine
Thiocarlide; its salts
Thioguanine
Thiopentone
Thiotepa; its salts
Thiothixene; its salts
Thiouracil; its alkyl derivatives
Thymoxamine Hydrochloride
Thyroid gland, the active principles of; their salts
Tilidene; its salts
Timolol and its salts
Tofenacin; its salts
Tolazamide; its salts
Tolbutamide; its salts
Tranexamic Acid
Tranyleypromine; its salts
Tretamine; its salts
Triamterene
FIRST SCHEDULE — (continued)

Triaziquone
Tri bromom ethyl alcohol
2, 2, 2-Trichloroethyl alcohol, esters of; their salts
Trim eperidine; its salts
Trimetaphan; its salts
Trimethoprim
Trimipramine; its salts
Troxidone
Tubocurarine Chloride
Tybamate
Urethane
Vasopressins, natural and synthetic
Verapamil, its salts
Viloxazine; its salts
Vinblastine; its salts
Vincristine; its salts
Warfarin; its salts
Yohimbine; its salts and quaternary compounds
Zinc phosphide
Zoxazolamine; its salts
ARTICLES EXEMPTED UNDER RULE 13 FROM PROVISIONS OF ACT AND RULES

GROUP I

GENERAL EXEMPTIONS

Adhesives; anti-fouling compositions; builders’ materials, ceramics, distempers; electrical valves; enamels; explosives; fillers; fireworks; fluorescent lamps; glazes; glue; inks; lacquer solvents; loading materials; matches; motor fuels and lubricants; paints other than pharmaceutical paints; photographic paper; pigments; plastics; propellant; rubber; varnishes; vascular plants and their seeds.

GROUP II

SPECIAL EXEMPTIONS

<table>
<thead>
<tr>
<th>Poison</th>
<th>Substance or article in which exempted</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acetanilide; alkyl acetanilides</td>
<td>Substances not being preparations for the treatment of human ailments.</td>
</tr>
<tr>
<td>Acetic Acid</td>
<td>Substances containing less than 20% weight in weight of acetic acid CH3 CCOH.</td>
</tr>
<tr>
<td>Alkaloids, the following —</td>
<td></td>
</tr>
<tr>
<td>Brucine</td>
<td>Surgical spirit containing not more than 0.015% of Brucine.</td>
</tr>
<tr>
<td>Emetine</td>
<td>Specacuanha; extracts and tinctures of ipecacuanha; substances containing less than 0.05% of emetine.</td>
</tr>
<tr>
<td>Ephedra, alkaloids of</td>
<td>Substances containing less than 1% of the alkaloids of ephedra.</td>
</tr>

THIRD SCHEDULE

(Schedule)

SUBSTANCES REQUIRED BY RULE 14 TO BE SOLD BY RETAIL ONLY UPON PRESCRIPTION GIVEN BY REGISTERED MEDICAL PRACTITIONER, DENTIST OR VETERINARY SURGEON

Acetanilide; alkyl acenilides
Acetazolamide
Acetohexamide
Acetorphine; its salts; its esters and ethers; their salts
Acetylcarbromal
Acetylicholine Chloride
Acetylecysteine
Acetyldigitoxin
Acetyldihydrocodeine; its salts
Adiphenine Hydrochloride
Alecuronium Chloride
Allopurinol
Allylisopropylacetylurea
Allylprodine; its salts
Alphacetylmethadol; its salts
Alphachlorose
Alphameprodine; its salts
Alphamethadol; its salts
Alprenolol; its salts
Amiloride Hydrochloride
Ambenonium Bromide
Ambuside
Ametazole Hydrochloride
Amidopyrine; its salts; amidopyrine sulphonates; their salts
p-Aminobenzenesulphonamide; its salts; derivatives; of p-aminobenzenesulphonamide having any of the hydrogen atoms of the p-amino group or of the sulphonamide group substituted by another radical; their salts
Amantadine Hydrochloride
Aminopterin Sodium
Aminorex; its salts
p-Aminosalicylic acid; its salts
Amitryptiline; its salts
Androgenic, oestrogenic and progestational substances, the following —
  Benzoestrol
  Derivatives of stilbene, dibenzyl or naphthalene with oestrogenic activity, their esters
  Steroid compounds with androgenic or oestrogenic or progestational activity; their esters; except when contained in preparations for oral contraception
THIRD SCHEDULE — (continued)

Anileridine; its salts
Antibiotics, the following, their salts; their esters, their salts —
   Actinomycins
   Amikacin Sulphate
   Amphomycin
   Amphotericins
   Bacitracin
   Bleomycine
   Candicidin
   Capreomycin
   Cephaloglycin
   Cephaloridine
   Cephalosporine, that is to say, the antimicrobial substances containing in their
   chemical structure a fused dihydrothiazine B-lactum nucleus
   Chloramphenicol
   Chortetracycline
   Clindamycin
   Cycloserine
   Demethylchlortetracycline
   Erythromycin
   Flavomycin
   Framycetin
   Fumagillin
   Fusidic Acid
   Gentamicin
   Gramicidins
   Griseofulvin
   Hachimycin
   Kanamycin
   Lincomycins, that is to say, the S-alkyl derivatives of 6, 8-dideoxy-6-trans-(4-alkyl-
   L-2-pyrrolidine carboxamido)-1-thio-D-erythro-oc-D-galacto-octo-pyranoside,
   and N-methyl-pyrrolidine analogues thereof
   Methacycline
   Minocycline
   Mithramycin
   Neomycin
   Novobiocin
   Nystatin
   Oleandomycin
   Oxytetracycline
   Paromomycin
   Penicillin; its salts and derivatives
   Polymyxins
Rifamycins, that is to say, a group of related antimicrobial microlactants, either produced by the growth of strep-tomyces mediterranei or by modification of such products, and containing the chemical structure of 11-acetoxy-7, 9, 15-trihydroxy-13-methoxy-2, 6, 8, 10, 12-pentamethyl-pentadeca 2, 4, 14-trienoic acid amide, attached by the nitrogen atom and by the oxygen atom in the 15-position respectively to the 7 and 2-positions of a 5, 6 9-trioxogenated 2, 4-dimethyl-1-oxonaphtho (2, 1-b) furan

Ristocetins
Spectinomycin
Spiramycin
Streptomycin and its derivates
Tetracycline, that is to say, antimicrobial substances containing the chemical structure naphthacene-2-carboxymide, hydrogenated to any extent, and having each of the positions 1, 3, 10, 11 and 12 substituted by a hydroxyl or an oxo group

Thiamphenicol
Tobramycin
Tylosin
Tyrothricin
Vancomycin
Viomycin
Virginiamycin
Apiol
Aprotinin
L-Asparaginase
Atenolol
Azacylonol; its salts
Azapropazone
Azathioprine
Barbituric acid; its salts; derivatives of barbituric acid; their salts; compounds of barbituric acid; its salts; its derivatives; their salts; with any other substances

Beclamide
Bemegride
Benactyzine; its salts; its quaternary compounds
Benapryzine
Benserazide Hydrochloride
Benzbromarone
Benzethidine; its salts
Benzhexol; its salts
Benzilonium Bromide
Benzoctamine; its salts
Bentropine and its homologues; their salts
Benzylmorphine; its salts
Betacetylmethadol; its salts
Betachloralose
THIRD SCHEDULE — (continued)

Betameprodine; its salts
Betaprodine; its salts
Bethanadine; its salts
Bethahechol Chloride
Bezitramide; its salts
Biperiden; its salts
Bretylium; its salts
Bromocriptine Mesylate
Bromvaletone
Bufexamac
Buformin; its salts
Bufotenine; its salts; its esters and ethers; their salts
Buphenine Hydrochloride
Busulphan; its salts
Butriptyline Hydrochloride
Cannabinol and its tetrahydro derivatives, prepared wholly or partly by synthesis; their
3-alkyl derivatives; any ester or ether of any substance falling within this item
Cannabis, (the whole plant, or part thereof, of Cannabis Sativa Linn); the resin of
cannabis; extracts of cannabis, tinctures of cannabis; cannabin tannate
Captodiame; its salts
Caramiphen; its salts
Carbenoxolone; its salts
Carbimazole
Carbromal
Carbutamide; its salts
Carisoprodol
Chloral; its addition and condensation products other than alphachloralose; their
molecular compounds; except when contained, in the form of chloral hydrate,
in preparations intended for external application only
Chlorambucil
Chloriazepoxide; its salts
Chlormethiazole; its salts
Chlorathiazine and other derivatives of benzo-1, 2, 4-thiadizine-7-sulphonamide-1, 1-
dioxide, whether hydrogenated or not
Chlorphenoxamine; its salts
Chlorphentermine; its salts
Chlorpropamide; its salts
Chlorprothixene and other derivatives of 9-methylenethiaxanthen; their salts
Chlorthalidone and other derivatives of o-chlorbenzene sulphonamide
Chlorzoxazone
Cimetidine
Clofazimine
Clofibrate
Clomifene; its salts
Clomipramine; its salts
Clonidine; its salts
Clonitazene
Cloroxolone
Clorprenaline; its salts; when contained in aerosol dispensers
Colchium, alkaloids of; their salts
Corticotrophine, natural and synthetic
Cortisone, hydrocortisone, prednisone; prednisolone, derivatives of these with hydroxyl, alkyl groups, or halogens as substituents; ethers and salts of such derivatives
Curare
4-Cyano-2-dimethylamino-4, 4-diphenyl-butane; its salts
4-Cyano-1-methyl-4-phenylpiperidine; its salts
Cyclarbamate
Cyclophosphamide
Cycrimine; its salts
Cyproterone; its salts
Cytarabine; its salts
Bacarbazine
Dantrolene Sodium
Danazol
Dapsone; its salts
Daunorubicin; its salts
Deanol; its salts
Debrisoquine; its salts
Demecarium bromide
Deptropine Citrate
Desferrioxamine Mesylate
Desipramine; its salts; its esters and ethers; their salts
Dextetimide
Dextromethorphan; its salts; except substances containing less than 1.5% of dextromethorphan
Dextromoramide; its salts
Diacetylmorphine; its salts
Diamino-diphenyl sulphones; their salts; their derivatives
Diampromide; its salts
Diazepam and other compounds containing the chemical structure of dihydro-1 4-benzodiazepine substituted to any degree; their salts
Diazoxyde; its salts
Dibenzepin; its salts
Dicyclomine Hydrochloride
NN-Diethyltryptamine (DET)
Dihydrallazine; its salts
Dihydrocodeine; its salts; its esters and ethers; their salts
Dihydrocodeinone; its salts
THIRD SCHEDULE — (continued)

Dihydromorphine; its salts; its esters and ethers; their salts
Diloxanide Furoate
Dimenoxadole; its salts
Dimephtanol; its salts; its esters and ethers; their salts
Dimepropion
Dimercaprol
Dimethothiazine Mesylate
2, 5-Dimethoxy-oc, 4-dimethylphenethy-lamine (DOM); its salts
Dimethyliambutene; its salts
N.N.-Dimethyltryptamine (DMT); its salts
Dimethyltubocurarine; its salts
Dinitro cresols (DNOC): the compounds with a metal or base, except preparations for use in agriculture or horticulture
Dinitronaphthols; dinitrophenols; dinitrothymols
Dioxaphetyl butyrate; its salts
Diphenoxylate; its salts
Dipipanone; its salts
Dipyridamole
Disopyramide
Disulfiram
Disulfamamide
Dithienylallylamines; dithienylalkylally-lamines; their salts
Dopamine Hydrochloride
Dothiepine; its salts
Doxapram; its salts
Doxepin; its salts
Doxorubicin; its salts
Drostanolone Propionate
Dyflos
Extylurea
Edrophonium Chloride
Emepronium Bromide
Emylcamate
Ephedrine; its optical isomers; their salts when contained in aerosol dispensers
Ergot, alkaloid of; whether hydrogenated or not; their homologues; any salt of any substance falling within this item
Estramustine Phosphate
Etafedrine; its salts
Ethacrynic acid; its salts
Ethambutol; its salts
Ethanivan
Ethamsylate
Ethchlorvynol
Ethebenecid
Ethinamate
Ethoglucid
Ethoheptazine
Ethosuximide
Ethylmethylthiambutene
Ethylmorphine; its salts; its esters and ethers; their salts
Ethylnoradrenaline; its salts; when contained in aerosol dispensers
Etonitazine; its salts
Etoxeridine
Fazadinium Bromide
Fancamfamin; its salts
Fenfluramine; its salts
Fenoprofen
Fenoterol
Fentanyl
Flavoxate
Fluanisone
Flucytosine
Flufenamic acid; its salts; its esters; their salts
Fluorouracil; its salts
Flupenthixol Decanoate
Fluprostenal
Flurbiprofen
Fluspirilene
Frusemide
Furaltadone
Furazolidone
Furethidine; its salts
Gallamine; its salts; its quaternary compounds
Glibenclamide; its salts
Glibornuride; its salts
Glipizide
Glutethimide; its salts
Glycopyrronium Bromide
Glymidine
Guanethidine; its salts
Guanoclor; its salts
Guanoxan; its salts
Haloperidol and other 4-substituted derivatives of N-(3-p-fluorobenzoyl-propyl) piperidine
Heparin
Heptaminol Hydrochloride
Hexachlorophene
Hexamethonium; its salts
Hexapropymate
Hydrallazine; its salts
THIRD SCHEDULE — (continued)

Hydrazines, benzyllphenethyl or phenoxyethyl; their oc-methyl derivatives; acyl derivatives of any of the foregoing substances comprised in this item; salts of any compounds comprised in this item
Hydrocodone; its salts
Hydromorphanol; its salts; its esters and ethers; their salts
Hydromorphone; its esters and ethers; their salts
Hydroxy-N, N-dimethyltryptamines; their esters or ethers; any substances falling within this item
Hydroxypethidine; its salts; its esters and ethers; their salts
Hydroxyurea
Hydroxyzine; its salts
Ibuprofen
Idoxuridine
Imipramine its salts
Indomethacin; its salts
Iprindole; its salts
Iproniazide; its salts
Isocaminile; its salts
Isocarboxazide; its salts
Isoetharine; its salts when contained in aerosols dispensers
Isomethadone (isoamidone); its salts
Isoniazid; its salts; its derivatives; their salts
Isopropamide Iodide
Ketamine; its salts
Ketobemidone; its salts; its esters and ethers; their salts
Ketoprofen
Khellin
Labetolol Hydrochloride
Laetrile
Levodopa; its salts
Levomethorphan; its salts
Levoramamide; its salts
Levophenacylmorphan; its salts; its esters and ethers; their salts
Levorphanol; its salts; its esters and ethers; their salts
Lithium carbonate
Lofepramine
Loperamide; its salts
Lofepramie
Loperamide; its salts
Lysergamide
Lysergide and other N-alkyl derivatives of lysergamide; their salts, simple or complex; their quaternary compounds
Mannomustine Hydrochloride
Maprotiline; its salts
Mazindol
Mebanazine; its salts
Mebeverine; its salts
Mebutamate
Mecamylamine; its salts
Meclafenoxate; its salts
Mefenamic acid; its salts; esters their salts
Mefruside
Melphalan
Mepenzolate Bromide
Mephenesin; its esters
Meprobamate
Mercaptopurine; its salts; derivatives of mercaptopurine; their salts
Metaxalone
Metaraminol Tartrate
Metazocine; its salts; its esters and ethers; their salts
Metformin; its salts
Methadone (amidone); its salts
Methadyl acetate; its salts
Methaqualone; its salts
Methimazole
Methixene; its salts
Methocarbomol
Metotrexate
Methoxsalen
Methoxyphenamine; its salts; when contained in aerosol dispensers
Methsuximide
Methylaminohexane; its salts; when contained in aerosol dispensers
Methylphenidate; its salts
Metoprolol
Methyldopa
Methyldopate; its salts
2-Methyl-3-morpholine-1,1-diphenyl-propane carboxylic acid; its salts; its esters; their salts
Methylphenylalanine; its esters and other derivatives
oc-Methylphenylethylamine, B-methyl-phenylethylamine and oc-ethylphenethy-lamine; any synthetic compound structurally derived from any of those substances by substitution in the aliphatic part of by ring closure therein (or by both such substitution and such closure) or by substitution in the aromatic ring (with or without substitution at the nitrogen atom) except ephedrine; its optical isomers and N-substituted derivatives, fenfluramine, hydroxyamphetamine, methoxyphenamine, phenylpropanolamine, pholedrine and prenaline; any salt of any substance falling within this item
Methylphenidate; its salts
Methyprylon
Metoclopramide; its salts
THIRD SCHEDULE — (continued)

Metomidate Hydrochloride
Metopon; its salts; its esters and ethers; their salts
Metoprolol Tartrate
Metyrapone
Mexiletine Hydrochloride
Mitobronitol
Mianeserin Hydrochloride
Mitopodozide; its salts
Morazone
Morinamide; its salts
Morpheridine; its salts
Morphine; its salts; its esters and ethers; their salts except substances containing less than 0.2% of morphine calculated as anhydrous morphine
Mustine and any other N-substituted derivatives of di-(2-chloroethyl) amine, their salts
Myrophone; its salts
Naftidrofuryl; its salts
Nalidixic acid; its salts; its esters and salts of such esters
Nialamide; its salts
Nicocodine; its salts
Nicodicodine; its salts
Nicomorphine; its salts
Nicoumalone
Nifedipine
Nifenazine
Nikethamide
Nitrofurantoin
Nitrofurazone
Nitromin; its salts
Nitroprusside; its salts
Noracymethadol; its salts
Norcodeine; its salts; its esters and ethers; their salts
Norlevorphanol; its salts; its esters and ethers; their salts
Normethadone; its salts
Normorphine; its salts; its esters and ethers
Norpipanone
Nortryptyline; its salts
Opipramol; its salts
Orciprenaline; its salts
Orphenadrline; its salts
Oxamniquine
Oxedrine Tartrate
Oxethazaine; its salts
Oxolinic Acid
Oxprenolol; its salts
Oxycodone; its salts; its esters; their salts
Oxormphone; its salts; its esters and ethers; their salts
Oxypertine; its salts
Oxyphenbutazone
Oxytoxins, natural and synthetic
Pancuronium; its salts
Papaverine; its salts
Paraldehyde
Paramethadione
Parathyroid Gland
Pargyline; its salts
Pemoline; its salts
Pempidine; its salts
Penicillamine; its salts
Pentazocine; its salts
Pentolinium; its salts
Perhexiline
Pethidine; its salts
Phenacaine; its salts
Phenacemide
Phenadoxone; its salts
Phenagylecodol
Phenanpromide; its salts
Phenazocine; its salts; its esters and ethers; their salts
Phenbutrazate
Phencyclidine; its salts
Phenbutrazate
Phenelzine; its salts
Phenformin; its salts
Pheneturide
Phenindione
Phenmetrazine; its salts; its molecular compounds
Phenormorphan; its salts; its esters and ethers; their salts
Phenoperidine; its salts; its esters and ethers; their salts
Phenothiazines; derivatives of; their salts except dimethoxonate; its salts, promethazine;
its salts and its molecular compounds
Phenoxybenzamine Hydrochloride
Phenoxypropazine; its salts
Phenprocoumon
Phensuximide
Phenternime; its salts
2-Phenyleincinchoninic acid; 2-salicycinchoninic acid; their salts; their esters
5-Phenylhlydantoin; its alkyl and aryl derivatives; their salts
4-Phenylpideridine-4-carboxylic acid ethyl ester; its salts
THIRD SCHEDULE — (continued)

Pholcodine; its salts; its esters and ethers; their salts
Physostigmine; its salts
Piminodine; its salts
Pimozide; its salts
Pindolo
Pipenzolate Bromide
Piperidolate Hydrochloride
Pipradrol; its salts; its esters and ethers
Piritramide; its salts
Pituitary gland, the active principles of, other than corticotrophins, oxytoxins and vasopressins
Pizotifen
Poldine Methylsulphate
Polidexide
Polymethylenebistrimethylammonium salts
Practolol
Prazosin
Prenylamine Lactate
Prilocaine Hydrochloride
Primidone
Probenecid
Procainamide; its salts
Procarbazine; its salts
Prochlorperazine; its salts
Procyclidine
Procheptazine; its salts
Prolintane Hydrochloride
Promazine; its salts and its molecular compounds
Promoxolan
Pronethalol; its salts
Propanidid
Propantheline Bromide
Properidine; its salts
Propiram
Propoxyphene; its salts
Propanolol; its salts
Propylhexedrine; its salts; except when contained in inhalers
Propylthiouracil
Prostaglandins
Protamine Sulphate
Prothionamide; its salts
Prothipendyl; its salts
Protriptyline; its salts
Psilocin
Psilocybine
Pyrazinamid and its salts
Pyridostigmine Bromide
Quinethazone
Quinidine; its salts
Quinine; its salts; except in preparations containing less than 10% of quinine or its salts
Racemethorphan; its salts
Racemoramide; its salts
Racemorphan; its salts; its esters and ethers; their salts
Rauwolfia, alkaloids of; their salts; derivatives of the alkaloids of rauwolfia; their salts
Razoxane
Rimital Hydrobromide
Ritodrine Hydrochloride
Salbutamol; its salts
Salmefamol
Sodium Cromoglycate
Sodium Valproate
Solapsone
Sotalol Hydrochloride
Sprinolactone
Styramate
Sulindac
Sulfinpyrazone
Sulphon; alkyl sulphonals
Sulpiride
Suprarenal gland medulla, the active principles of; their salts
Suxamethonium; its salts
Syrosingopine
Tacrine Hydrochloride
Tamoxifen; its salts
Terbutaline; its salts when contained in aerosol dispensers
Terabenzine; its salts
Thalidomide; its salts
Thebacon; its salts; its esters; their salts
Thiambutene
Thiambutozine
Thiocarlide; its salts
Thioguanine
Thiopentone; its salts
Thiotepa; its salts
Thiothixene; its salts
Thiouracil; its alkyl derivatives
Thymoxamine Hydrochloride
Thyroid gland, the active principles of their salts
Tilidene; its salts
THIRD SCHEDULE — (continued)

Timolol; its salts
Tofenacin; its salts
Tolazamide; its salts
Tolbutamide; its salts
Tranexamic Acid
Tranylcypromine; its salts
Tretamine; its salts
Triamterine
Triaziquone
Tribromethyl alcohol
2, 2, 2-Trichloroethyl alcohol, esters of, their salts
Trimperidine; its salts
Trimetaphan; its salts
Trimethoprim
Trimipramine; its salts
Troxidone
Tubocurarine Chloride
Tybamate
Urethane
Vasopressins, natural and synthetic
Verapamil; its salts
Vinblastine; its salts
Vincristine; its salts
Warfarine; its salts
Yohimbine; its salts and quaternary compounds
Zoxazolamine; its salts
FOURTH SCHEDULE

(rule 19(2)(a))

STATEMENT OF PARTICULARS AS TO PROPORTION OF POISON IN CERTAIN CASES PERMITTED BY RULE 19(2)(a)

<table>
<thead>
<tr>
<th>Name of Poison</th>
<th>Particulars</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alkaloids</td>
<td>The proportion of any one alkaloid of aconite that the preparation would be calculated to contain on the assumption that all the alkaloids of aconite in the preparation were that alkaloid.</td>
</tr>
<tr>
<td>Aconite, alkaloids of</td>
<td></td>
</tr>
<tr>
<td>Belladonna, alkaloids of</td>
<td>The same as above, with the substitution for the reference to aconite of a reference to belladonna, calabar bean or such other of the said poisons, as the case may require.</td>
</tr>
<tr>
<td>Calabar bean, alkaloids of</td>
<td></td>
</tr>
<tr>
<td>Coca, alkaloids of</td>
<td></td>
</tr>
<tr>
<td>Colchicium, alkaloids of</td>
<td></td>
</tr>

FIFTH SCHEDULE

(rule 6(2)(c))

INDICATION OF CHARACTER PRESCRIBED BY RULE 20
FOR PURPOSE OF SECTION (6)(2)(c)

1. To be labeled with the words “Caution. It is dangerous to take this preparation except under medical supervision” —
   Medicines made up ready for the internal treatment of human ailments and containing insulin.

2. To be labeled with the words “Caution. It is dangerous to exceed the stated dose” —
   Medicines (other than medicines containing insulin and medicines mentioned in paragraph 9 of this Schedule) made up ready for the internal treatment of human ailments except in the case of a substance included in First Schedule.

3. To be labelled with the words “Poison. For animal treatment only” —
   Medicines made up ready for the treatment of animals.

4. To be labelled with the words “Caution. This preparation may cause serious inflammation of the skin in certain persons and should only be used in accordance with expert advice” —
   Preparations for the dyeing of hair containing phenylene diamines, tolyenediamines, or other alkylated-benzene diamines or their salts.

5. To be labelled with the words “Caution. This substance is caustic” —
   Potassium hydroxide, sodium hydroxide and articles containing either of those substances.

6. To be labelled with words “Caution. This substance is poisonous. The inhalation of its vapour, mist, spray or dust may have harmful consequences. It may also be dangerous to let it come into contact with the skin or clothing” —
   Dinitrocrecols (DNOC); their compounds with a metal or base; except preparations for the treatment of human ailments and except winter washes containing not more than the equivalent of 5% of dinitrocrecols
   Dinosam; its compounds with a metal or base
   Dinoseb, its compounds with a metal or base
   Endosulfan
   Endothal, its salts
   Endrin
FIFTH SCHEDULE — (continued)

Fluoroacetamide; fluoroacetanilide
Mercury, organic compounds of, in aerosols
Organo-tin compounds, the following —
   Compounds of fentin
Phosphorous compounds, the following —
   Any substance derived from the molecule H$_3$PO$_4$ by substitution of any of
   the hydrogen or oxygen atoms and used as pesticides (insecticides, acaricides etc.) excepting
   Bromophos
   Bromophos-ethyl
   2-chloro-1-(2, 4, 5-trichlorophenyl) vinylidimethyl phosphate
   Diazinon
   Dimethoate
   Dipterex
   Fenchlorphos
   Fenitrothion
   Fenthion
   Malathion
   0, 0, 0′-tetramethyl 0, 0′-thiodi-p-phenylene phosphorthioate
   Sodium 4-(dimethylamino) benzenediazosulphonate.

7. To be labelled with the words “Caution. This substance should be administered
   only under medical supervision. The vapour is dangerous” —
   Medicines made up ready for the internal or external treatment of human ailments
   and containing dyflos.

8. To be labelled with the words “Caution. This substance is poisonous. Inhalation
   of powder is dangerous. It is also dangerous to let the substance come into contact with
   the skin or clothing” —
   Monofluoroacetic acid; its salts.

9. To be labelled with words “Caution. This may cause drowsiness. If affected, do
   not drive or operate machinery” —
   Anti-histamine substances, the following; their salts; their molecular
   compounds —
   Antazoline
   Bromodiphenhydramine
   Buclizine
   Carbinoxamine
   Chlorcyclizine
   Chlorpheniramime
   Cinnarizine
FIFTH SCHEDULE — (continued)

Clemizole
Cyclizine
Cyroheptadine
3-Di-n-butylaminomethyl 4, 5, 6-trihydroxyphthalide
Dimethyprindene
Diphenhydramine
Diphenylpyraline
Doxylamine
Isothipendyl
Mebhydroline
Meclastine
Meclozine
Phenindamine
Pheniramine
Phenyltoloxamine
Promethazine
Pyrrobutamine
Thenalidine
Tolpropamine
Triprolidine
Substances being tetra-N-substituted derivatives ethylenediamine or propylenediamine.

10. To be labelled with the words “Caution. Ingesting may be harmful. If this preparation is used on the hands, they should be thoroughly washed before handling food. Preparations for tropical application containing menthanthelinium or propantheline bromide”.

11. To be labelled with the words “Caution. Do not inhale vapour or allow contact with skin, eyes or clothing” —

Methyl bromide.
SIXTH SCHEDULE

(rule 26(1))

SUBSTANCES TO WHICH RULE 26(1) (TRANSPORT) APPLIES

Aldicarb
Allethrin
Amitroz
Arsenical Poisons
Barium, salts of
Biocresmethrin
Bromopropylate
Chlorinated hydrocarbon, the following —
Aldrin, enzene hydrochloride (BHC), bromocyclen, campacechlor, captafol, captan, chlorbenside, chlorbicyclen, chlordane, chlordcone, chlordimeform, chlorfenethol, chlorfensens, chlorfensulphide, chlorobenzilate, chloromebutoxide, chloropropylate, dicophane (DDT), pp’-DDT, dicofol, dieldrin, dienochlor, diflubenzuron, endosulfan, endrin, fenazaflor, fenson, fluorbenzide, folpet, gamma benzene hydrochloride (Gamma-BHC) (HCH), KEOD (1, 2, 3, 4, 10, 10-hexachloro-6, 7-epoxy-1, 4, 4a, 5, 6, 7, 8, 8a-octa-hyro-1, 4(exo) 5, 8(endo)- dimethanaphthlene), HHDN (1, 2, 3, 4, 10, 10-hexachloro-1, 4, 4a, 5, 8, 8a hexahydro-1, 4 (exo): 5, 8 ((endo)-dimethanaphthalene), heptachlor, isobenzan, isodrin, kelevan, methoxychlor (1, 1, 1-trichloro-2, 2-di-(p-methoxyphenyl) ethane), tetrachloriphenylethane (TDE: 1, 1-dichloro-2, 2-bis (p-chlorophenyl) ethane), tetradifon, tetrasul, toxaphene, allied chlorinated hydrocarbon compounds used as pesticides (insecticides, acaricides etc.)
Chlorinated phenols, their salts
Chlormequat
Cycloheximide
Cyhexatin
Decarhafuran
Dimethrin
Dimetilan
Dinitroresols, (DNOC), their compounds with a metal or a base, when contained in preparations for use in agriculture or horticulture
Dinosam, its compounds with a metal or a base, when contained in preparations for use in agriculture or horticulture
Dinoseb, its compounds with a metal or a base, when contained in preparation for use in agriculture or horticulture
Diooxcarb
Diphenyl
Diquat; its salts
Drazoxolon; its salts
Endosulfan
Endothal; its salts
Endrin
SIXTH SCHEDULE — (continued)

Ethoxiquin
Fluroacetamide; fluorocetanilide
Fluenetil
Formetanate
Hydrocyanic acid; cyanides other than ferrocyanides and ferricyanides, except preparations containing less than the equivalent of 0.1%, weight in weight, of hydrocyanic acid (HCN)
Methomyl
Monofluoroacetic acid; its salts
Nicotine; except in preparation containing less than 4% of nicotine
Organo-tin compounds, the following —
   Compounds of fentin
Paraquat; its salts.

SEVENTH SCHEDULE

(rule 30(1))

SUBSTANCES TO WHICH RULE 30(1) (COLOURING) APPLIES

Drazoxolon; its salts
Flourcoacetamide; flouroacetanilide
Monofluoroacetic acid; its salts
Organo-tin compounds, the following —
   Compounds of fentin
Phosphorus compounds, the following —
Any substance derived from the molecule H3P04 by substitution of any of the hydrogen or oxygen atoms and used as pesticides (insecticides, aearieides etc) excepting —
Bromophos, bromophos-ethyl, 2-chloro-1 (2, 4, 5-trichlorophenyl) vinyldimethyl phosphate, diazinon, dimethoate, dipterex, fenchlorphos, fenitrothion, fenthion, malathion, 0, 0, 0’ 0’-tetramethyl 0, 0’-thiodi-p-phenylene phosphorothioate.
LAWS OF BRUNEI

Poisons

CAP. 114, R 1 69

[Subsidiary]

EIGHTH SCHEDULE

(rule 3(1))

FORM A

Poisons Act (Chapter 114)

LICENCE TO IMPORT AND STORE POISONS

In exercise of the powers vested in me by the above Act I hereby authorise .......................................................... whose business is at ....................................................

to import poisons from the date hereof until the 31st December, 20 .......

This licence is issued subject to the provisions of the Poisons Act (Chapter 114) and of any rules made thereunder and to the following conditions —

Dated at ......................................................... this ................................................. day of ......................................................... 20 ......

Licencing Officer

Register No. ..........................................................
EIGHTH SCHEDULE — (continued)
(rule 3(2))

FORM B

Poisons Act (Chapter 114)

 LICENCE TO DEAL GENERALLY IN POISONS

BY WHOLESALE AND RETAIL

Licence is hereby granted to ...............................................................

of ...............................................................

carrying on business at ...............................................................
to deal generally in poisons by wholesale and by retail at his said business subject to the provisions of the Poisons Act (Chapter 114) and of any rules made thereunder and subject to the following special conditions, viz —

....................................................................................................................

....................................................................................................................

....................................................................................................................

The licence takes effect from the ...............................................................
day of ............................................................ 20 .... and expires on the 31st December of that year.

Dated at ............................................................ this ................................................ day
of ............................................................ 20 .......

....................................................................................................................

Licensing Officer

Register No. ............................................................
FORM C

Poisons Act (Chapter 114)

LICENSE TO KEEP AND SELL POISONS BY WHOLESALE

Licence is hereby granted to ...............................................................
of ........................................................................................................
carrying on business at ...................................................................................................
to keep and sell by wholesale at his said business premises the poisons hereunder specified —
........................................................................................................
........................................................................................................
........................................................................................................
........................................................................................................
........................................................................................................
........................................................................................................

This licence is issued subject to the provisions of the Poisons Act (Chapter 114) and of any rules made thereunder and subject to the following conditions —
........................................................................................................
........................................................................................................
........................................................................................................
........................................................................................................

The licence takes effect from the ..........................................................
day of .......................................................... 20 ...... and expires on the 31st December of that year.

Dated at .......................................................... this ..........................................
day of .......................................................... 20 ......
........................................................................................................

Licensing Officer

Register No. ......................................................................................
Poisons Act (Chapter 114)

LICENCE TO KEEP AND SELL POISONS BY RETAIL

Licence is hereby granted to ............................................................................................................
of ....................................................................................................................................................
carrying on business at ....................................................................................................................
to keep and sell by wholesale at his said business premises the poisons hereunder specified —
...........................................................................................................................................................
...........................................................................................................................................................
...........................................................................................................................................................
...........................................................................................................................................................

This licence is issued subject to the provisions of the Poisons Act (Chapter 114) and of any rules made thereunder and subject to the following conditions —
...........................................................................................................................................................
...........................................................................................................................................................
...........................................................................................................................................................
...........................................................................................................................................................

The licence takes effect from the ....................................................................................................
day of ........................................................ 20 ...... and expires on the 31st December of that year.

Dated at ........................................................ this ................................................. day
of .......................................................... 20 ......

..........................................................
Licensing Officer

NINTH SCHEDULE

(rule 7)

FEES

The fee for any licence issued under the Act shall be $15:

Provided that registered pharmacists shall be exempted from the payment of any fee for a licence issued under the Act or these Rules and that a person who requires more than one licence issued under the Act or these Rules, for the purpose of his trade or business, shall be required to pay a fee of $25 only.
